- Re PIR on "HF Communications
and Troposcatter Facilities -
Anadyr - Ukolnyy Area":

- It is apparent to me
that an amazing amount of
analytical and graphics
work of high quality was
put into this Report.

- The outcome is both
well-presented and -- I
judge -- of considerable value
to NSA -- which means to all
of us, eventually.

Re PIR on "Possible SA-3
Site in Egypt":

- Well done in every
respect -- speed, content
in words, content in map & photos.

- Speaking for our customers,
thank you.
